

BAUMANN SPRINGS

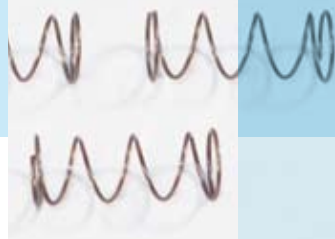

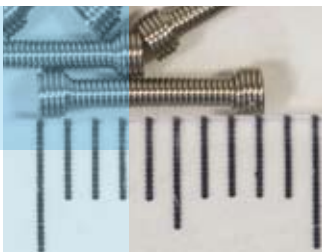

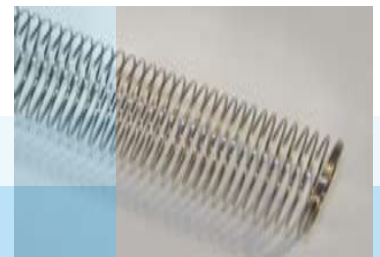

Medical Technology & Products

BAUMANN SPRINGS

The BAUMANN SPRINGS Group is a leading corporation in providing strong engineering support and know how, technical variety and seamless expertise, as well as customer care and market presence

- 1200 employees in 13 countries, all committed to 'Spring' Technology
- Over 120 years of experience in high quality products
- Excellent Customer Service through our Network of Companies, with dedicated people, product engineering and production units
- Optimal transfer of know how and Technology through our worldwide organization
- Total Customer Care through competent engineering & solution building in the early phase of the development / design phase
- Willingness to develop and invest in new technologies

- MEDICAL PARTS & COMPONENTS

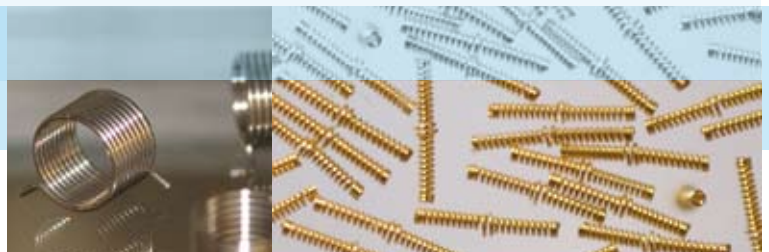

Diameters & tolerances

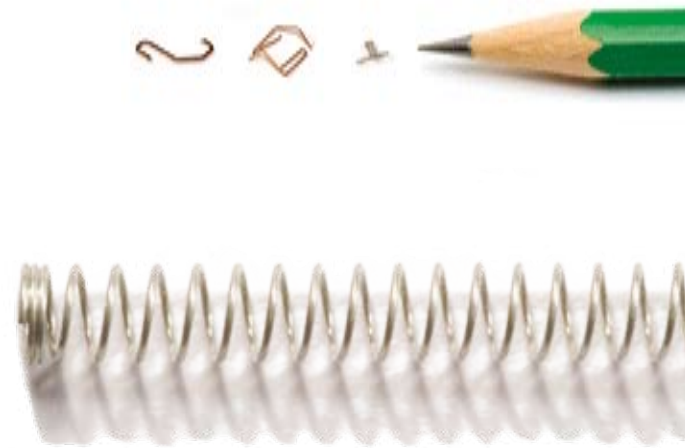

- Wire diameter from 0,04mm / 0,0016"
- Strip material from 0,05mm / 0,0018"
- Standard tolerances according to DIN and ASTM
- Tighter tolerances through sorting and 100% control

Springs, Stampings & Wire forms

Typical applications:

Guide wires, Tracheal tubes, Diagnostic equipment, Hearing aids, Dispensers, Blood sugar monitors, Insulin delivery systems, Pacemaker components, Urology, Device manufacturing, and much more...

Raw Materials for Medical applications

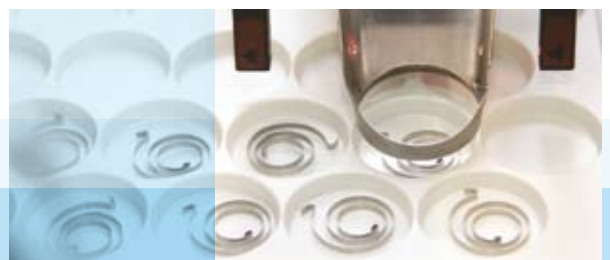

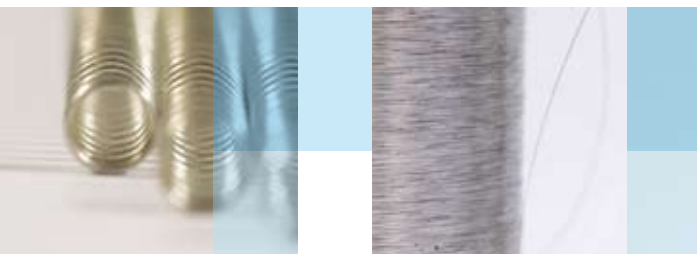

The BAUMANN SPRINGS Group has the capability to make springs from every material that is made for spring production. Should you come up with a new type, we quickly build up the required know how with robust investigation.

Some of the materials include:

Stainless Steel, Pre-Coat PTFE and Hydrophilic, Platinum, BeCu Plated, Hastelloy, Titanium, Tantalum

Medical Packaging Solutions

From bulk non sterile to single pack, special, customer-specific, clean solutions, optimized for your assembly process.

- PEOPLE & TECHNOLOGY DEDICATED TO THE MEDICAL MARKET

Technology Leadership

Our top technology is specifically mastered for the benefits of the Medical Industry: optimized for all volumes and also for special requirements, with customer specific cleanliness and packaging solutions. Through continuous investments in new Technologies, we assure high innovation and efficiency in all machines & processes.

„Total Solution Care“ through dedicated people & machines, state of the art packaging solutions and integrated processes in a clean environment.

Extraordinary Quality and Cleanliness

All BAUMANN SPRINGS companies are certified according to ISO 9001, TS 16949 and ISO 14001. We implement more stringent industry standards regarding safety, quality and cleanliness in all our operations. BAUMANN SPRINGS applies specific cleaning systems and procedures and proven micro-technology with accuracy down to hundredths of millimetres. BAUMANN SPRINGS creates customer-specific quality processes, employ automated, totally secured control procedures right at the machine.

Leading Partnership

At BAUMANN SPRINGS, a partnership within the Medical Industry is assured for the long term with clear commitment. We want to develop innovation together and support our customers through lean co-engineering and quick prototyping, dedicated customer service and outstanding time-to-market processes.
